Radiance RA-014 Blue Topaz

Great design translates into all languages and **Accent** speaks volumes. Graceful lines and contours are exercised in extra-thick solid wood frames with multistep finishes. Choose finishes that complement HPFI wood veneer or laminate casegoods. Triple-groove construction of seat frame rails and corner blocks increases rigidity and long-term durability. All at modest prices for an affordable seating solution in many different areas. All models are available with casters for use as conference seating.

Keys to comfort

Accent chairs feature separate seat components with structural outer, flexible center and high-comfort cushioning. Flexible seat-center reduces pressure on the spine for comfortable sitting. Contoured 3" thick cushioning provides a soft, supportive seat. All designs feature generous scale and proportion.
