

Desking

Who says you can't be all things to all people?

e5 is the go-anywhere, do-anything furniture solution that can be used to furnish everything from private offices and open plan spaces to benching applications – all while promoting productivity and collaboration.

Easy to Specify. e5 offers a logical, intuitive structure along with a minimum number of parts – so specifying is simple, quick and slick. It's almost impossible to get it wrong ... but help is just a phone call away if you need it.

Easy to Install. We know (down)time is money – so we put a whole lot of brainpower into designing uncomplicated connections. Modular units, for example, simply slide and lock securely into place, requiring minimal tools and fasteners.

Easy to Power. This is where e5 really excels. Our patent-pending Technology Beltway takes power throughout any configuration, seamlessly and transparently ... even after the system has been assembled. Connections are all easily made from a seated position.

Easy to Reconfigure. e5 prepares you for whatever the future may bring – because it's a cinch to rearrange, reuse and reinvent your space as conditions dictate. Today's bench can become tomorrow's executive desk ... or vice versa.

Easy to Afford. e5 delivers superior technology integration, exquisite fit and finish, and an all-around user-friendly experience that simply cannot be matched at this price point. Go ahead and compare us to the rest!

A NEW PERSPECTIVE ON THE OFFICE.

THE WALLS COME TUMBLIN' DOWN.

Worksurfaces in Designer White, Wardrobe Towers in Raven, and Storage Cabinets in Raven with Delve Black and Veer Black fabric Cushions. Commute™ Chairs in Flection Tango fabric.

More and more of today's workplaces require a level of collaboration that panel systems just won't allow. e5 delivers the space-saving footprint and expansive power capabilities of a panel solution in an environment that promotes interaction, without the isolating walls.

Easy-to-Power features include Technology Beltways and a variety of 8-wire/4-circuit Power Kits that will accommodate even the most tech-intensive environments.

Power is routed from the source and up to the worksurface via our innovative Technology Beltway. Power kits can be added and reconfigured any time, with virtually no tools required.

Power and data outlets are placed within arm's reach while an integral trough below the worksurface conceals excess cabling. Easy!

THE LONG AND THE TALL OF IT.

Worksurfaces and Overhead Cabinets in Designer White, Standing-Height Worksurfaces in Raven, Mobile Pedestals in Columbian Walnut with Cushions in Beeline Forge fabric. Commute™ Chairs in Flection Foil fabric.

Benching applications make extremely efficient use of real estate while promoting collaboration. e5 makes benching even more comfortable and productive with options for standing-height worksurfaces and overhead storage. Worksurfaces cantilever into position and storage components simply slide and lock into place atop our Technology Walls – the load-bearing equivalent of our Technology Beltways. That’s just one of many **Easy-to-Install** touches!

Technology Walls offer arm-level access to power/data plus convenient cable troughs.

Modular components install in a snap – they just slide and lock into place. Overhead Cabinets are offered with or without frosted glass or laminate doors, or as an open pass-through.

ONE PLATFORM, MANY USES.

Worksurfaces, Storage Cabinets, Overhead Cabinet with frosted glass doors, Support Modules, Pedestals and Wardrobe Tower in Summer Suede. 3200 Chair in Black fabric.

e5's common-sense approach to building a workspace makes it just as **Easy to Specify** private offices as collaborative environments. A variety of freestanding and wall-mounted components let you create near-endless configurations, in colors and finishes that range from traditional to ultra-modern. Use e5 throughout your office to create a unified look, feel and function while enhancing your **Easy-to-Reconfigure** flexibility.

Easy-to-attach acrylic or laminate Modesty Panels are available for all standard configurations.

Overhead Cabinets may be supported by Corner Units with shelves (above) or Storage Modules (upper left).

A universal kit of parts eases specification in every area of your floor plan. Worksurface in Designer White. Storage Cabinets, Overhead Cabinet with laminate doors, Support Modules and Wardrobe Tower in Summer Suede. 3200 Chair in Black fabric.

e5 makes even full-featured executive offices amazingly affordable. Worksurfaces, Pedestals and Wardrobe Towers in Columbian Walnut. Storage Cabinets, Overhead Cabinet with frosted glass doors and Support Modules in Designer White. Commute™ Chair in Flection Tango fabric.

A magnetic Tackboard spans between vertical components to display notes, photos and art.

Worksurfaces may be supported by full End Panels in addition to Steel Legs or Pedestals.

IT'LL GROW ON YOU... AND WITH YOU.

Specifying Technology Walls will help position you for future growth – you can add modular components like Overhead Cabinets and Standing-height Worksurfaces as your business evolves.

e5 is **Easy to Afford** for even the smallest companies. Because it's also **Easy to Reconfigure**, adding workers and transforming work environments is a piece of cake. You can repurpose components into entirely new applications and expand office layouts with minimal disruption. Bulk up storage. Diversify function. Add more power, anywhere you want it. Whatever your needs, now and in the future, you can count on e5 for an easy solution.

Right- and left-hand Hatchet Worksurfaces provide expanded working space.

Standing-height Worksurfaces invite collaboration and promote movement.

Storage Cabinets are two-sided – an open or doored compartment on one side and a Markerboard or Tackboard on the other, so they're functional from either direction.

It's evolution in progress, with the addition of new storage and surface components, as well as a private-office suite. Open Plan: Worksurfaces and Pedestals in Summer Suede, and Overhead Cabinets and Standing-height Worksurfaces in Designer White. Private Office: Worksurfaces, Pedestals, Overhead Cabinets, Support Modules and Wardrobe Towers in Columbian Walnut. Commute™ Chairs in Flection Foil fabric throughout.

Storage Story.

Freestanding caseloads include a variety of layered- and desk-height Base Units as well as Wardrobes and Bookcases. All are equipped with metal legs to facilitate floor cleaning.
