Quality. Versatility. Value.

# Quality. Versatility. Value.

Parallel Unitized Panel System provides versatility and clean lines at the price you want. With a wide variety of panel sizes, finishes, worksurfaces and storage options, you will be able to optimize your work space for efficiency. Designed with the future in mind, Parallel can change with your business and the limited lifetime warranty provides assurance in its lasting value.

Our supplier certification program identifies companies with environmental goals similar to ours.

Our packaging contains recycled material and is recyclable, while our bulk pack option reduces the overall amount of packaging and thus, transportation needed.

FABRICS | FINISHES

A variety of fabric, glass and laminate finish options give you the ability to control the look and the bottom line.

Route power and data through the raceways to provide easy access.

# Open up the office.

Parallel can support your need for real estate optimization. From a simple line of workstations to a more complex system with multiple users and storage solutions, Parallel provides a budget friendly benching solution. Its simple and flexible design makes the transition to an open office environment easy.

Privacy screens provide subtle discretion without limiting collaboration.

Specify mobile pedestals to give your team the ability to work where they want. Add cushions to provide additional seating for impromptu meetings.

Our powder coat paint finishes are applied in a special chamber that continuously collects excess paint particles so they can be reused.

# Options without the expense.

Parallel was designed to be flexible. With monolithic and segmented panels in varying heights, Parallel panels can be configured to suit your needs. Fabric, glass and laminate finishes combined with a wide range of storage options control the look, as well as the bottom line.

Parallel panels with translucent sliding doors or hinged laminate doors add privacy.

Parallel's storage has received SCS Indoor Advantage Gold Certification for indoor air quality. A selection of our panel fabrics contain recycled content and may contribute to your effort towards LEED certification.

A variety of panel heights provides visual interest to the work environment.

Strategically mix finish options to create a sophisticated look and manage costs.

Coordinate overheads, desk height organization tools and freestanding files to design your unique storage solution.

City Lights | Wheat

# Power and data where you want it.

Parallel can be strategically configured to keep your business connected. Raceway, non-raceway and open bottom panels can be mixed and matched to deliver power and data to your workstations in a clean, organized and cost-effective way.

Value engineer Parallel workstations by incorporating basic non-raceway panels to deliver power and data only where it's needed.

Metal raceways that are 6 inches tall allow power and data to be routed to computers and other electrical components with ease.

Our products utilize steel and aluminum that contain post-consumer materials and are recyclable.

## Value without compromise.

Parallel was designed to offer many cost-effective configuration options and to make reconfiguration easy. Versatile connection options allow Parallel to install quickly and to change and adapt as your business does - all with minimal cost.

With the simple specification of connector hardware, you can easily reconfigure your Parallel panels to a 2-way, 3-way, 4-way or 120° connection.

Our outbound load planning system combines product shipments to geographical areas to reduce fuel consumption and greenhouse gas emissions.

High pressure laminate worksurfaces are available in a wide range of shapes and sizes with solid or woodgrain trim.

Panel-mounted privacy screens are a cost-effective way to provide additional visual privacy for work stations.

Simple and flexible design.

Use one system to create everything from teaming and call center stations to enclosed private offices. A wide selection of worksurface options and connection angles let Parallel support any application in your work environment.

Extend your workspace with half-round worksurfaces for additional collaborative space.

Parallel’s worksurfaces have received SCS Indoor Advantage Gold Certification for indoor air quality. Our particleboard contains post-consumer and post-industrial recycled content.
